5. पकोड़ी

चौड़ी-चौड़ी
आई पकोड़ी।

खून-खून खून-खून
केल में नाची,
पेट में आ
शमसाई पकोड़ी।

चौड़ी-चौड़ी
आई पकोड़ी।

हाथ में उखली
गूँह में फूँची,
पेट में जा
फससाई पकोड़ी।

चौड़ी-चौड़ी
आई पकोड़ी।

मरे मन को
घसाई पकोड़ी।

Practice Counting Backwards #1 Practice Counting Backwards #1 Most kids are good at counting forward, but counting backward is a different ball game. Practice counting down by filling in the blanks with the right numbers. When it comes to teaching first-grade students the common core standards of mathematics, there's no better way to practice than with worksheets geared toward repeatedly applying the same basic concepts such as counting, adding and subtracting without carrying, word problems, telling time, and calculating currency. As young mathematicians progress through their early education, they will be expected to demonstrate comprehension of these basic skills, so it's important for teachers to be able to gauge their students' aptitudes in the subject by administering quizzes, working one on one with each student, and by sending them home with worksheets like the ones below to practice on their own or with their parent. However, in some cases, students may require additional attention or explanation beyond what worksheets alone can offer—for this reason, teachers should also prepare demonstrations in class to help guide students through the coursework. When working with first-grade students, it's important to start from where they understand and work your way up, ensuring that each student masters each concept individually before moving on to the next topic. Click on the links in the rest of the article to discover worksheets for each of the topics addressed. One of the first things first graders have to master is the concept of counting to 20, which will help them quickly count beyond those basic numbers and begin to understand the 100s and 1000s by the time they reach the second grade. How many are left? Here's another way to ask the question: A man was holding some balloons and the wind blew 4 away. He only has 6 balloons left, how many did he start with? Too often we ask questions where the unknown is at the end of the question, but the unknown can also be put at the beginning of the question. Explore more concepts in these extra worksheets. Here is a graphic preview for all of the subtraction worksheets. You can select different variables to customize these subtraction worksheets for your needs. The subtraction worksheets are randomly created and will never repeat so you have an endless supply of quality subtraction worksheets to use in the classroom or at home. Our subtraction worksheets are free to download, easy to use, and very flexible. These subtraction worksheets are a great resource for children in Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Click here for a Detailed Description of all the Subtraction Worksheets. Click the image to be taken to that Subtraction Worksheet. Subtraction Facts Table Worksheets These subtraction facts table are colorful and a great resource for teaching kids their subtraction facts. A complete set of printable subtraction facts for 1 to 12. Single Digit Subtraction Worksheets Vertical Format | 2 Numbers These single digit subtraction worksheets are configured for 2 numbers in a vertical problem format. The range of numbers used for each worksheet may be individually varied to generate different sets of subtraction worksheets. You may select up to 30 problems for these worksheets. Zero to Twenty Subtraction Worksheets Vertical Format | 2 Numbers These subtraction worksheets are configured for 2 numbers in a vertical problem format where you may select numbers from zero to twenty to generate different sets of subtraction problems. You may select up to 30 problems for these worksheets. Subtracting Within a Number Worksheets Vertical Format | 2 Numbers These subtraction worksheets will produce vertical format subtraction problems within a selected number. You may select the maximum number and the number of problems to produce, or you may select the non-repeating Kindergarten, 1st, or 2nd Grade set of unique problems. These special problem set will produce worksheets that will directly test the Common Core State Standards. Subtracting with Dots Subtraction Worksheets Vertical Format | 2 Numbers These subtraction worksheets will produce 12 vertical subtraction problems with dots to the right of each number for the children to subtract. The range of numbers used may be individually varied to generate different sets of subtraction problems. Subtracting Dot Figures to Ten Subtraction Worksheets Vertical or Horizontal Format | 2 Numbers These subtraction worksheets will produce 12 vertical or horizontal subtraction problems using dot figures to represent the numbers. You may select the numbers for the subtraction worksheets to be used from 0 to 10. Subtracting Dot Figures to Twenty Subtraction Worksheets Horizontal Format | 2 Numbers These subtraction worksheets will produce 10 horizontal subtraction problems using dot figures to represent the numbers to twenty. The equations may be displayed under the dot figures if you select that option. You may select the numbers for the subtraction problems to be used from 0 to 20. Subtracting Two Digit Numbers Ending in a Fixed Number Worksheets Horizontal Format These subtraction worksheets produces great worksheets that subtract two digit numbers that end in a fixed number. The numbers may be selected to be positive, negative or mixed numbers. You may select up to 30 subtraction problems per worksheet. Single or Multiple Digit Subtraction Worksheets Horizontal Format These subtraction worksheets may be configured for either single or multiple digit horizontal subtraction problems. The numbers used in the subtraction worksheets may be selected to be either positive, negative or mixed numbers. You may select up to 30 subtraction problems for these worksheets. 2, 3, or 4 Digits Subtraction Worksheets Vertical Format These subtraction worksheets may be configured for 2, 3, or 4 digits. You may select some regrouping, no regrouping, all regrouping, or subtraction across zero. You may select between 12 and 20 subtraction problems for these worksheets. 4, 5, or 6 Digits Subtraction Worksheets Vertical Format These subtraction worksheets may be configured for 4, 5, or 6 digits. You may select some regrouping, no regrouping, all regrouping, or subtraction across zero. You may select between 12 and 20 subtraction problems for these worksheets. One & Two Digit No Regrouping Subtraction Worksheets Vertical Format These subtraction worksheets are great for problems that do not require regrouping. The subtraction worksheets may be configured with either 2 digits minus 1 or 2 digit problems. The no regrouping option may be switched off on these subtraction worksheets if some regrouping is desired. The problem format is vertical and you may select up to 30 subtraction problems for these worksheets. 2, 3, and 4 Digit No Regrouping Subtraction Worksheets Vertical Format These subtraction worksheets are great for problems that do not require regrouping. The subtraction worksheets may be configured with up to 4 digits and 2 addends. The no regrouping option may be switched off on these subtraction worksheets if some regrouping is desired. The problem format is vertical and you may select up to 30 subtraction problems for these worksheets. One & Two Digit No Regrouping Subtraction Worksheets Horizontal Format These subtraction worksheets are great for problems that do not require regrouping. The subtraction worksheets may be configured with either 2 digits minus 1 or 2 digit problems. The no regrouping option may be switched off on these subtraction worksheets if some regrouping is desired. The problem format is horizontal and you may select up to 30 subtraction problems for these worksheets. Subtraction Across Zero Subtraction Worksheets Multiple Digits | Vertical Format These subtraction worksheets are great for practicing subtraction across zero. The subtraction worksheets may be configured for 3 or 4 digits. You may select up to 30 subtraction problems for these worksheets. Decimal Numbers Subtraction Worksheets Vertical Format These subtraction worksheets may be configured for 1, 2, and 3 Digits on the right of the decimal and up to 4 digits on the left of the decimal subtraction problems. You may select up to 25 subtraction problems for these worksheets. Subtracting Money Subtraction Worksheets Vertical Format These subtraction money worksheets may be configured for up to 4 digits in each subtraction problem. The currency symbol may be selected from Dollar, Pound, Euro, and Yen. You may select up to 25 subtraction problems for these worksheets. 1, 3, or 5 Minute Subtraction Drill Worksheets Vertical Format A timed drill subtraction worksheets contain all of the single digit subtraction problems on one page. A student who has memorized all of the single digit subtraction problems should be able to work out these subtraction worksheets correctly in the allowed time. Advanced Subtraction Drills Worksheets Vertical Format This worksheet will generate advanced subtraction drills as selected by the user. The user may select from 256 different subtraction problems from a tables ranging from 0 to 15. The user may also select a 1 minute drill of 20, a 3 minute drill of 60 problems, a 5 minute drill of 100 problems, or a custom drill with ranges from 20 to 100 problems and times of 1 to 5 minutes. Missing Number Subtraction Worksheets Horizontal Format These subtraction worksheets are good for introducing algebra concepts. You may select various types of characters to replace the missing numbers on these subtraction worksheets. The formats of the subtraction worksheets are horizontal and the numbers range from 0 to 99. You may select up to 30 subtraction problems for these worksheets. Missing Digits Subtraction Worksheets Vertical Format These multiple digit subtraction worksheets are configured for a vertical problem format. The missing digits on the subtraction worksheets are randomly selected to challenge the children. The number of digits on these subtraction worksheets may be varied between 2 and 4. You may select up to 30 subtraction problems for these worksheets. Irregular Units Subtraction Worksheets These subtraction worksheets are great for teaching children to subtract irregular units of measurement. These subtraction worksheets may be selected to include Feet & Inches, Pounds & Ounces, Hours & Minutes, and Minutes & Seconds. These subtraction worksheets will produce 15 subtraction problems per worksheet. Subtracting Feet & Inches Worksheets These subtraction worksheets are great for practicing subtracting two measurements of feet with fractional inches. These subtraction worksheets will use 1/2's, 1/4's, 1/8's, 1/16's and there is an option to select 1/32's and 1/64's. Subtracting with Doubles Worksheets These subtraction worksheets are great for practicing subtracting with doubles or near doubles. Subtraction Facts One to Ten Worksheets Vertical Format | 2 Numbers These subtraction worksheets will produce subtraction facts where the answers are between one and ten. You may select up to 30 subtraction problems per worksheet. Visual Subtraction Worksheets Subtraction Worksheets These subtraction worksheets produce visual subtraction problems with geometric shapes representing subtraction.
